

OSHA Workplace Safety Outreach

This information-packed, LIVE, virtual workshop is one of the most widely attended OSHA training programs available today. You'll get a one-day comprehensive update on the very latest in OSHA's ever-changing requirements, and you'll also learn about innovative ways other organizations are successfully meeting these stringent standards — without busting the budget.

You'll gain an understanding of the basics of OSHA recordkeeping, learn how to avoid the most common OSHA violations and gain a better understanding of the “gray areas” of OSHA regulations. In addition, you'll find out exactly what you need to do to be prepared for an OSHA site visit so you pass with flying colors.

A special section on workplace violence offers real insight into reducing the risk of this grave threat to worker safety. Gain peace of mind — and establish a safer, OSHA-compliant facility — using the solid strategies and essential information you'll receive in this must-attend update. Enrollments are limited, so register today!

Session 1

OSHA Compliance — From Must-Know Basics to the Newest Regulations

- Learn what OSHA is, what they do — and how it affects you
- Receive an update on the latest changes in OSHA regulations
- Unscramble OSHA's confusing lexicon to define citation, violation, standards, requirements, recognized hazard, serious physical harm and many more
- Know the differences between federal and state OSHA operations

Session 2

Addressing Your Risk Management
